

REMARKS

Applicant respectfully requests reconsideration of the present application in view of the foregoing amendments and in view of the reasons that follow. After amending the claims as set forth above, claims 10-18 are now pending in this application.

Applicant would like to thank the Examiner for the careful consideration given to the claims.

Rejection of claims 10-18 based on 35 U.S.C. 112, second paragraph

Claims 10-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite because it was unclear if the "lamp housing," the "installation element," and the "first and second cylinders" are meant to be part of the measurement arrangement of claim 10 and if the "lamp housing" and the "installation element" are meant to be part of the measurement arrangement of claim 17. Claim 10 has been amended to claim a "measurement system" which comprises a measurement arrangement, a lamp housing, an installation element, and first and second hollow cylinders so as to clarify that these elements are part of the system of claim 10. Claims 11-16 depend from and contain all the features of claim 10, and their preambles have been amended so as to be consistent with claim 10.

Claim 17 has been amended to claim a "measurement system" which includes a measurement arrangement, a lamp housing, and an installation element so as to clarify that these elements are part of the system of claim 17. Claim 18 depends from and contains all the features of claim 17, and its preamble has been amended so as to be consistent with claim 17.

For at least these reasons, favorable reconsideration of the rejection is respectfully requested.

Conclusion

Applicant believes that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.
